TECHNOMANCERS

by Marc Gurwitz

> Work together with your team to
> complete programs using your
> code components to defeat the AI
> algorithms

// Cooperative
// Real-time challenge
// Timed, simultaneous play
// Timer is a soundtrack with audio cues

Players: 2-5
Time: 30 min
Ages: 8+

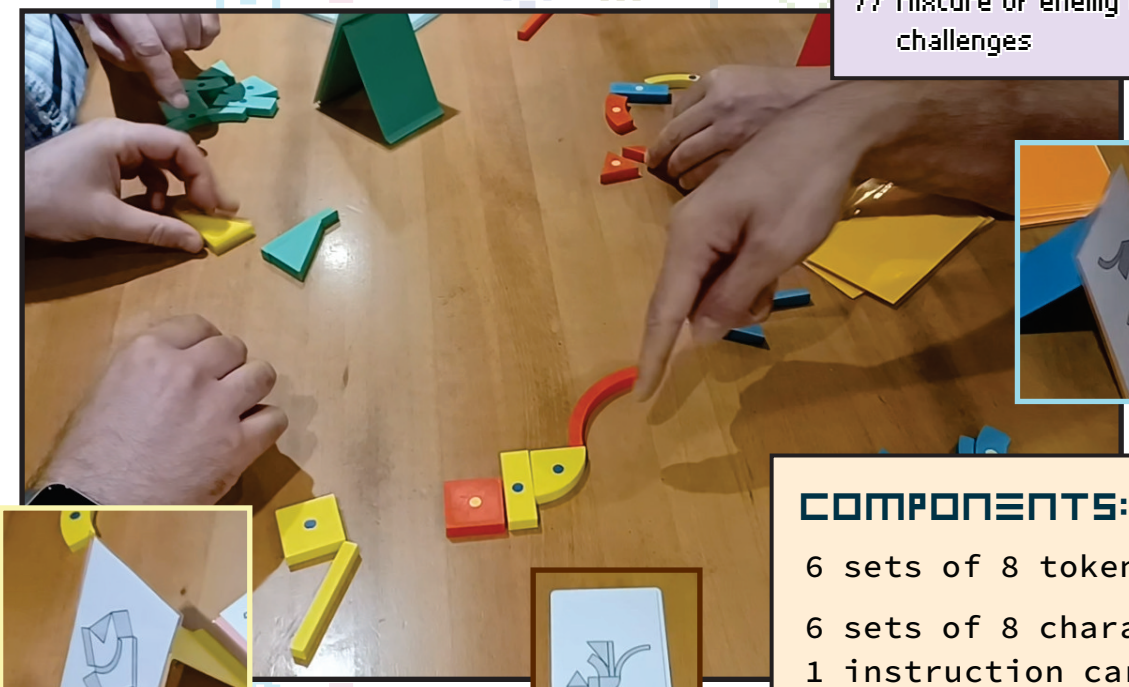

PLAYING THE GAME:

Players will use their code block tokens to create the program showing on their card. They can ask teammates to help as well!

Once a player has completed their program, they take one of the code blocks used in the code to complete the enemy AI algorithm.

If all players can complete the enemy AI algorithm before the timer runs out, they have successfully defeated it!

// Scales from 2-5 players
// Variety of different-styled characters
// Mixture of enemy difficulty levels and challenges

COMPONENTS:

6 sets of 8 tokens

6 sets of 8 character cards +
1 instruction card per character

7 freestanding card holders

24 enemy algorithm cards

10 enemy challenge cards

timer as soundtrack audio file
